Whatever its origin, unwanted magic has always been regarded with suspicion and fear. Its very existence is seen as a threat to the natural

order, and those who delve too deeply into its secrets are said to invite madness and destruction upon themselves.

## Characteristics of Unwanted Magic

- **Forbidden and Dangerous:** Unwanted magic is explicitly forbidden by most magical traditions. It is considered to be too dangerous and unpredictable to be used for any purpose other than the most extreme situations.
- **Unstable and Chaotic:** Unwanted magic is inherently unstable and chaotic. It is difficult to control, and even the most experienced mages can find themselves overwhelmed by its unpredictable effects.
- **Corruptive and Destructive:** Unwanted magic can corrupt and destroy both the user and the target. It can lead to physical harm, mental instability, and even death.
- **Hidden and Secretive:** Unwanted magic is often hidden and secretive. It is passed down through generations of clandestine practitioners, who guard its secrets jealously.

## Uses of Unwanted Magic

Despite its dangerous nature, unwanted magic has been used for a variety of purposes throughout history. In some cases, it has been employed for malevolent ends, such as curses, hexes, and mind control.

However, there are also instances where unwanted magic has been used for good. For example, it has been used to heal the sick, protect the innocent, and vanquish evil. In these cases, the user must be extremely skilled and cautious to avoid the potentially disastrous consequences.

## Examples of Unwanted Magic

- **Blood Magic:** Blood magic is a form of unwanted magic that involves the use of blood for magical purposes. It is often used for dark rituals and curses, but can also be used for healing and divination.
- **Necromancy:** Necromancy is the art of communicating with the dead. It is a powerful and dangerous form of unwanted magic, and can be used for both good and evil purposes.
- **Demon Summoning:** Demon summoning is the practice of summoning demons from other realms. It is a highly dangerous form of unwanted magic, and can only be performed by the most experienced and powerful mages.
- **Astral Projection:** Astral projection is a form of unwanted magic that allows the practitioner to project their consciousness out of their body. It can be used for exploration, meditation, and communication with other beings.

Unwanted magic is a powerful and dangerous force that should be approached with caution. Its uses can be both good and evil, but the consequences of using it can be dire. Only the most skilled and experienced mages should attempt to delve into its secrets, and even then, they should do so with the utmost care and respect.

For the rest of us, unwanted magic remains a realm of mystery and fascination. It is a testament to the power of the unknown, and a reminder that there are still secrets in the world that defy our understanding.
